
BOBBY JOHNSON EQUIPMENT COMPANY, INC.

SEPTEMBER 15, 2015

Our company is located in an area where business relies heavily on the oil industry. With the drop in oil prices in the last 6 months we needed to find a way to connect with buyers outside our area. We needed to get more exposure for our parts - fast! Knowing the value of advertising online we looked to Truck Parts Inventory for help.

With TPI, our parts are now exposed to buyers nationally and internationally. TPI has helped us to reach more buyers and sell parts to a wider audience quickly and efficiently. We have gained many new customers and industry contacts. Our business has grown since signing up with TPI.

Truck Parts Inventory brings buyers to us!
